

AI's complexities extend far beyond its technological aspects.

AI Technology Development

AI Application Use and Oversight

Sector Adaptation

A holistic frame
can assure that
real world factors
are accounted for
across the entire
AI ecosystem.

A “hierarchy of needs” framing can be applied in the forensic science setting to:

**Clarify Operational
Requirements of AI
Technologies**

**Facilitate
Development of
Policies and
Procedures**

**Foster AI-Aware
Organizational
Culture**
